

## Microbes in Your Scalp

Authorities say that a microbe causes baldness. If you are losing hair try our remedy at our risk.

Professor Unna, of Germany, and Dr. Sabouraud, the great French Dermatologist, claim that a microbe causes baldness, and their theory has been verified by eminent scientists. This microbe destroys the hair follicles, in time causing the scalp pores to close and the scalp to become shiny. Then, it is believed nothing will revive the growth. If treated before this occurs, baldness may be overcome.

We know of nothing that has given such universal satisfaction in treating the scalp and hair as Rexall "93" Hair Tonic. It has been designed after long study to overcome the cause of falling hair as discovered by Prof. Unna, Dr. Sabouraud and other scalp and hair specialists, and we believe it will do more than anything else can to remove dandruff and stop falling hair; and if any human agency can promote a new growth of hair it will do that, too.

We want you to make us prove it. We will pay for a month's treatment of Rexall "93" Hair Tonic used during a trial, if you will use it according to directions, and are not thoroughly satisfied. When we will do this, you surely should not hesitate to at least try it.

Start the treatment today. Your mere request will get your money back if you want it. Two sizes: 50c and \$1.00.

You can buy Rexall "93" Hair Tonic in this community only at our store:

### SEMINOLE PHARMACY

Punta Gorda, The Rexall Store, Florida

## Best Known Cough Remedy

For forty-three years Dr. King's New Discovery has been known throughout the world as the most reliable cough remedy. Over three million bottles were used last year. Isn't this proof? It will get rid of your cough, or we will refund your money. J. J. Owens, of Allendale, S. C., writes the way hundreds of others have done: "After twenty years, I find that Dr. King's New Discovery is the best remedy for coughs and colds that I have ever used." For coughs or colds and all throat and lung troubles, it has on equal. 50c and \$1.00 at all druggists.

## Notice of Application for Leave to Sell Minor's Land.

Notice is hereby given that on the 19th day of April, A. D. 1913, I will apply to Honorable W. D. Bell, County Judge in and for DeSoto County, State of Florida, at his office in Arcadia, in said County, for an order authorizing me, as Guardian of the persons and estate of James H. Sandlin and Reid W. Sandlin, minor heirs of J. L. Sandlin deceased, to sell at private sale the interest of said minors in the following described land situate, lying and being in DeSoto County, Florida, to wit:

The South one-half of the South West 1/4 of Section 22, Township 41, S., of Range 23, E., less the following: Commencing at northeast corner of the SE 1/4 of SW 1/4, of said section 22, running south to the southeast corner of said 40; thence west to a stake 110 yards; thence north to the center of channel of Pineapple river; thence up said river about the center of said channel to the mouth of a spring branch; thence up the center of spring branch to the north boundary of said 40, thence east to place of beginning, containing 15 1/2 acres more or less.

Also the north one-half of the NW 1/4 of section 27, township 41, S., Range 23, E., less the following: Commencing at SW corner of NW 1/4 of NW 1/4, running easterly to a deep gully branch; thence in a northerly direction along said gully branch to the center of channel of Alligator creek; thence down down the creek center to section line between sections 27 and 28; thence in a southerly direction along said section line to place of beginning, being 13 1/2 acres more or less.

Said land belonging to the estate of said minor or to be sold for the best interest of said minors heirs.

This 11th day of March, 1913.  
J. R. SANDLIN,  
Guardian of the above named minors.

## Florida the Greatest

When asked if he had any farewell message for Florida, Col. W. J. Bryan said: "No, I have not bid the State farewell. I have only gone temporarily and expect to return this summer for a brief stay and then come back this winter to my home, where I have bought and am developing what I consider some of the best lands in the whole country."

Col. Bryan said that he had come to Florida because of the vast possibilities of the State, from every standpoint, and that he had become identified with these possibilities through purchase of various small tracts of land in different sections, believing that there is no part of Florida that is not good.

His attention was called to "snow prevailing in Nebraska" yesterday and said: "Nebraska is a good State only its climate, now and then gets wrong. Florida has the greatest climate in the world. It is never too cold. It is never too hot. I am glad I and my family were here this winter to escape the rigors of the Western plains."

"Florida is undoubtedly the greatest State in the Union when possibilities are considered." — Jacksonville Metropolis.

## Fruit Growers to Meet

A meeting of the Florida Fruit Growers' Protective Association of DeSoto county will be held in the Court House in the city of Arcadia on Saturday at 2.30 on Mar. 29th, 1913. This meeting will take the place of the adjourned meeting at Orlando.

This will be by far the most important meeting held in the county and State during the year. Note the three all important subjects to be taken up at this meeting and you will see that every packer and grower in the county and State should be present.

First—The tariff on citrus fruits will be taken up and a memorial passed, addressed to the Representatives of Florida.

Second—The grading of Florida Citrus Fruits will be discussed and a petition forwarded to the Gov-

ernor and Legislature of the State on this subject of vital interest to every packer and grower in the State.

Third—Plans will be laid before this meeting covering the entire proposition of marketing citrus fruits to the end that the grower will get a living price for his fruit and know what that price is before the fruit passes out of his control.

Every packer and grower in the State know the conditions that make intelligent and firm action at the present time necessary to save the citrus industry from indefinite slaughter. The honest and intelligent packers and growers are coming to the front to save this great industry of the State. Cut this notice out and keep it with you as a reminder that you are to attend this meeting on the last Saturday in this month at the city of Arcadia.

E. PROUDY, Pres.

FRANK HORTON, Sec.

Lakeland Telegram:—We take it that the next Legislature is going to adopt with slight if any alterations the recommendations as to the changes in our court procedure made by the commission appointed by Governor Gilchrist for that purpose. Some of the foremost lawyers of Florida were members of that commission and they considered the subject very thoroughly before they agreed upon the changes recommended. It is fully worth a session of the Legislature to get these changes in the rules of our courts, which will dethrone the technicality and make expeditious justice the leading consideration in the trial cases.

Starke Telegraph:—The Telegraph is not taking much stock in the proposition to bond the state for state highways. We have always believed that good county roads should come first—that these would benefit more of the taxpayers and result in more development. If the counties build good roads, they can be easily connected up and be thus made into a state system. In an agricultural and horticultural state like Florida, the farmers are the great wealth producers and our first duty in road building is to them. A system of state highways would reach only a small per cent. of them.

Mulberry Herald:—Flower seeds are only a few cents per package, but who can estimate the value that the sight of the grown flowers bring to the father or son who returns from the office or factory when he reaches home. It will be a much happier home for the presence of a few flowers. Wives might try this and see the results. Husbands might bring home seeds and plant them and then await the reward that is sure to come to them.
